

HYDRAULIC CYLINDERS TEST STATION

CODE	FLOW RATE (L/min.)	PRESSURE MAX (BAR)	CAPACITY TANK (L)
CPC	5	150	30
CPC-S9L	9	90	30
CPC-S15L	15	50	30
CPC P200 PO15	15	200	50

The CPC test station is a useful equipment to test the proper operation of hydraulic cylinders.

The movement of the cylinder can be managed with a manual handle, the pressure can be set according to the specific requirements.

The CPC test station is available with different flow rates and maximum working pressure.
